Overview of Swimming Pathway in Wales

What is Pathway?

SWIM WALES SKILLS ACADEMY

Pathway refers to the **structured progression** that individuals undertake as they move through **different stages of participation and development** within the sport.

This pathway typically **starts from grassroots or introductory levels**, such as learn-to-swim programs, and **progresses through various levels of training environments, competition and skill development** to reach **elite or high-performance levels**.

The Pathway serves to guide individuals through their sporting journey, providing structure, support, and opportunities for development as they strive to achieve their full potential within the sport.
